

## **Beyond the Classroom Walls Assignment**

### **Justin Daigle, CJE**

#### **Learning Target**

SWBAT will identify how they will gather (as well as the kinds of) academics coverage in remote and in-person environments in order to tell stories that reflect the school year.

#### **Directions**

Follow these steps in thinking about your Academics Coverage for the year

1. Brainstorm how you should organize Academics based off of your Theme/Concept. Remember, your theme/concept drives all decisions of your books so make sure you know how you are organizing it: traditional, chronologically, umbrella, etc.
2. Brainstorm a list of angles of coverage that you can consider for this upcoming year.
  - What do you know will happen and you have to cover?
  - What are some universal types of things that you could cover remotely or in-person?
3. Create a plan of how to find coverage
  - Draft an email to your faculty (optional)
  - What are your yearbook staff's responsibilities to get this coverage?
